

CS 439

Agentic Software Engineering

Lead your own team of AI coding agents.

Anyone can type a prompt. Leading a team of agents takes the engineering to make them deliver, and the judgment to know when they have.

Train like a lead engineer.

THE ENGINEERING BEHIND BETTER AGENTS

Requirements

acceptance criteria

Design

architecture you own

Context

guiding your agents

Testing

tests as guardrails

Review

plans, designs & evidence

Version control

small, traceable changes

CI/CD

automated quality gates

Security

your software & your agents

WHEN

Tue & Thu
2:00–3:15 PM

WHERE

RB130

PREREQUISITE

CS 222 Advanced
Programming

OPEN TO

Juniors and
seniors
